

Important announcement

Subject Firewall V16.1.3.5

Date 05/09/2023

Concerning department(s) All departments that making use of SWISSRoute Total Messaging

Dear SWISSRoute Clients,

Due to critical security vulnerabilities, we must upgrade the web application firewalls. The migration is planned to take place on the following days.

Test environment – This upgrade took place on Monday, September 4th, 2023, and was completed successfully.

Production environment – Saturday, September 16th, 2023, after 6.00 pm CET

This migration will affect the following applications:

- SWISSRoute Total Messaging / SWISSRoute Total Screening
- Netguardian

Some short interruptions will be noticed during this migration.

Thank you for your understanding and cooperation.

Best regards,
